

logic::Observer

```
graph BT; A[representation::EntityView] --> B[logic::Observer];
```

A UML class diagram showing an inheritance relationship. The class 'representation::EntityView' is at the bottom, shaded gray, with a black border. The class 'logic::Observer' is at the top, white, with a black border. A blue arrow points from the top of 'representation::EntityView' to the bottom of 'logic::Observer', indicating that 'representation::EntityView' inherits from 'logic::Observer'.
